INTELLIGENT ACCESS. REAL SITE CONTROL.

Site Sentinel provides integrated access control, safety and contractor management solutions for construction and industrial sites. Our systems give you complete visibility of who is on site, where they can go and when their access begins or expires — all from a simple, user-friendly platform.

From standalone turnstiles to fully containerised entry solutions, we combine proven hardware with smart software to deliver safer, more secure and more productive sites.

KEY BENEFITS

IMPROVE SITE SAFETY

Know who is on site and ensure compliance

INCREASE EFFICIENCY

Automate access and contractor management

ENSURE COMPLIANCE

Maintain clear, auditable records

REDUCE RISK

Prevent unauthorised access

REAL-TIME VISIBILITY

Access site data anytime, anywhere

SUSTAINABLE SOLUTIONS

Solar powered options for remote locations

FULLY AUTONOMOUS. DROP IN. READY TO GO.

Our containerised site access systems can be powered using green energy solar solutions, making them a fully autonomous, drop-in solution.

Solar panels, battery storage and the access control infrastructure can be configured together to provide reliable, off-grid operation — ideal for remote sites, new projects or locations where mains power is unavailable or impractical.

Simply deliver, position, power up and connect — your controlled access point is ready to go.

GREEN ENERGY. REAL IMPACT.

- ✓ Solar powered with battery storage
- ✓ Fully autonomous operation
- ✓ Reduced environmental impact
- ✓ No mains power required
- ✓ Ideal for remote and early works sites

SOLAR → BATTERY STORAGE → SITE SENTINEL ACCESS CONTAINER
SUSTAINABLE. RELIABLE. ANYWHERE.

ALCOHOL BREATH TESTING. INTEGRATED WITH SITE ACCESS.

Site Sentinel can integrate alcohol breath-testing systems into the controlled entry workflow. Contractor identity, compliance status and breath-test outcomes can be combined to manage whether site access is authorised, embedding an additional safety control directly into the entry process.

CUSTOMER OUTCOMES FIRST

We integrate the systems that make sense for your project and configure the workflow around the result you need: safer access, less administration, better visibility and stronger compliance.

"EXPECTATIONS DELIVERED."

PROVEN SOLUTIONS. TRUSTED PARTNERS.

We're proud to work with leading construction and infrastructure organisations, delivering safer, smarter and more secure sites. Our success is built on strong partnerships, reliable solutions and a commitment to customer outcomes.
